

BST< T >::node

+ data

+right
+left

A diagram of a binary search tree node structure. It consists of a vertical rectangle divided into three horizontal sections. The top section contains the text 'BST< T >::node'. The middle section contains the text '+ data'. The bottom section is empty. A curved line with a small diamond at its base extends from the right side of the middle section, looping upwards and then downwards to point towards the text '+right' and '+left'.
